## 2. INPUT CODE

```html
<html>
  <title>
      </title>
      <style>
          h1{
              text-align: center;
          }
          div{
              border:1px solid black;
              width:500px;
              margin-left: 500px;
              background-color: rgb(40, 226, 205);
              border-radius: 20px;
              box-shadow: 5px 5px 15px red;
          }
          form{
              margin-left: 130px;
          }
          input{
              width:150px;
          }
          input,label{
              margin:5px;
          }
          input:hover{
              background-color: aquamarine;
          }
          .i1{
              margin-left: 60px;

          }
          .i2{
              margin-left: 10px;
          }
          .i4{
              margin-left: 55px;
          }
          .i5{
              margin-left: 75px;
          }
          .i6{
              margin-left: 15px;
          }
          .i7{
              margin-left: 90px;
          }
          .i8{
              margin-left: 65px;
          }
          .i9{
```

```css
                margin-left: 50px;
                width:155px;
                margin-top: 10px;
                margin-bottom: 8px;
        }
        .i9:hover{
                background-color: aquamarine;
        }
        .i10{
                margin-left: 45px;
        }
        .i11{
                margin-left: 20px;
        }
        .b1{
                margin-left: 220px;
                margin-bottom: 10px;
                padding: 5px;
                width:100px;
                background-color:aquamarine;
                color:rgb(123, 53, 53);
                border-radius: 12px;
                box-shadow: 2px 2px 5px rgb(123, 53, 53);
        }
        button:hover{
                background-color:rgb(84, 206, 165);

        }
        ::placeholder{
                text-align: center;
                color:rgb(162, 243, 243);
        }
        a{
                text-decoration: none;
        }
    </style>
  </head>
  <body>
    <div>
        <h1>Employee Details</h1>
        <form>
        <label> Emp_id:</label>
        <input  class='i1' type="number" placeholder="enter your
Emp_id"><br>
        <label> employee name:</label>
